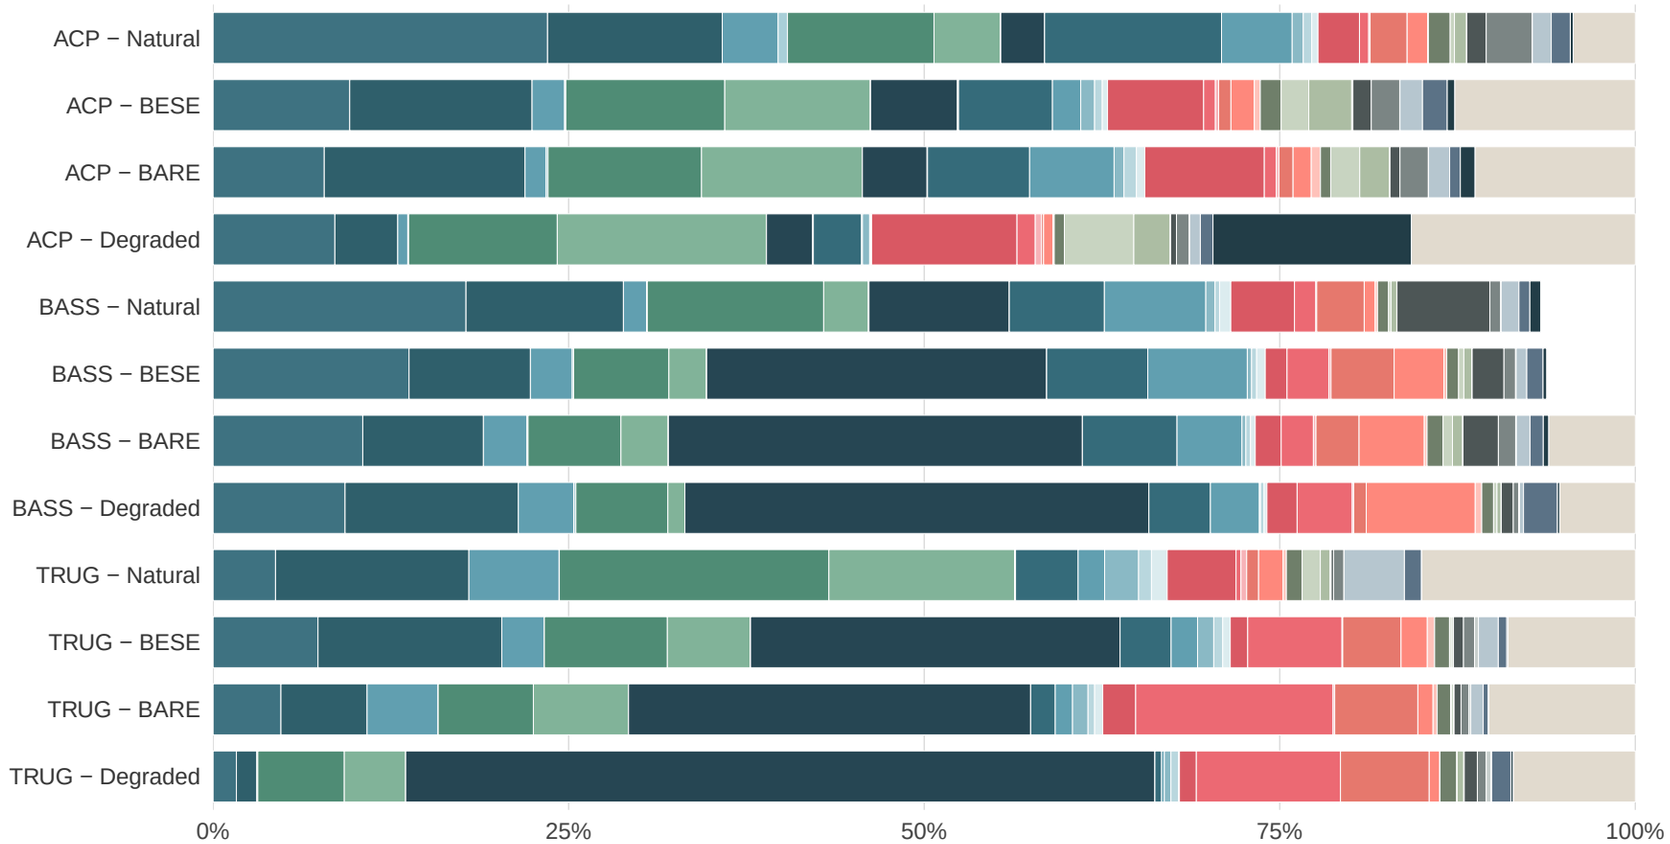
Overall microbial composition by site and ecological condition

Class−level groups nested within dominant phyla; bulk−soil and rhizosphere samples combined

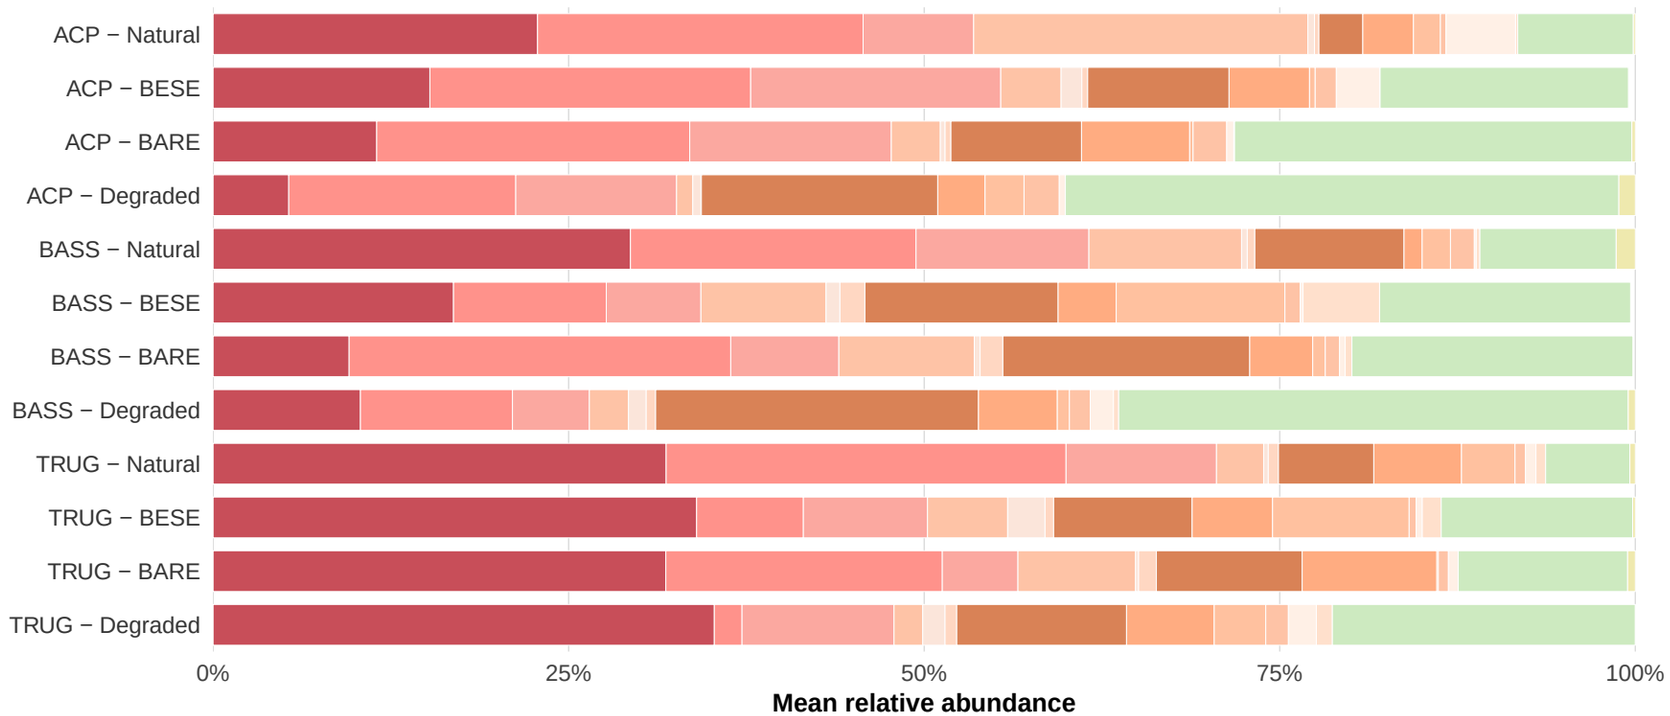
A. Prokaryotic community



Prokaryotic phylum − class

- Actinobacteriota − Actinobacteria
- Actinobacteriota − Acidimicrobiia
- Actinobacteriota − Thermoleophilia
- Actinobacteriota − Other classes
- Proteobacteria − Alphaproteobacteria
- Proteobacteria − Gammaproteobacteria
- Proteobacteria − Other classes
- Halobacterota − Halobacteria
- Halobacterota − Other classes
- Chloroflexi − Anaerolineae
- Chloroflexi − Chloroflexia
- Chloroflexi − KD4−96
- Chloroflexi − Dehalococcoidia
- Chloroflexi − Other classes
- Bacteroidota − Bacteroidia
- Bacteroidota − Rhodothermia
- Bacteroidota − Other classes
- Gemmatimonadota − PAUC43f marine benthic group
- Gemmatimonadota − BD2−11 terrestrial group
- Gemmatimonadota − Other classes
- Desulfobacterota − Desulfuromonadia
- Desulfobacterota − Desulfobacteria
- Desulfobacterota − Desulfobulbia
- Desulfobacterota − Other classes
- Firmicutes − Bacilli
- Firmicutes − Clostridia
- Firmicutes − Other classes
- Acidobacteriota − Other classes
- Acidobacteriota − Thermoanaerobaculia
- Halanaerobiaeota − Halanaerobiia
- Other phyla

B. Fungal community



Fungal phylum − class

- Ascomycota − Dothideomycetes
- Ascomycota − Sordariomycetes
- Ascomycota − Unclassified class
- Ascomycota − Eurotiomycetes
- Ascomycota − Other classes
- Ascomycota − Leotiomycetes
- Basidiomycota − Unclassified class
- Basidiomycota − Agaricomycetes
- Basidiomycota − Cystobasidiomycetes
- Basidiomycota − Tremellomycetes
- Basidiomycota − Other classes
- Basidiomycota − Agaricostilbomycetes
- Unclassified fungi − Unclassified class
- Other phyla
